

EMERGENCY MEDICAL SERVICES

OPERATION AND MISSION

Emergency Medical Services (Med-Act) provides basic and advanced life support services to the citizens of Johnson County, Kansas. Med-Act is a service of Johnson County government, administered by the Board of County Commissioners.

Med-Act began service as the Advanced Life Support (ALS) provider for Johnson County in March 1975. This was the result of a two-year study by the Board of County Commissioners to come up with the best possible ALS system for the people of the County. Funding comes from a tax levy and a user fee. Initially, there were two paramedic units serving the entire county. There are now thirteen transporting ambulances staffed 24 hours a day. Four non-transporting vehicles known as Paramedic Advanced Response (PAR) units serve the rural areas. Paramedics staff all units. Paramedics also work in immediate and long range organizational planning. This is accomplished through the Med-Act Council and special interest groups. The Council participates in decision-making processes regarding Med-Act's growth and activities in concert with their mission and values.

INTERACTION AND ADJACENCIES

- Board of County Commissioners
- County Manager
- Emergency Communications
- Facilities Management

FACTORS INFLUENCING CHANGE

- General growth in County population (and geographic distribution) increasing demand for services
- Aging of population tending to increase demand (average age of persons treated is 55 years)
- Outreach and education programs are expanding

SPECIAL NEEDS

- Incremental growth of ambulance units based upon number of calls, geographic proximity.
- Extensive warehouse storage.
- Training facilities for public, operations personnel.

CURRENT CONDITIONS

MED ACT currently occupies space 11811 S. Sunset Dr. , where the departmental administrative components are located, and 17 decentralized locations, which support

field operations. While these facilities are adequate for current operations, they do not support fully expanded functions in training, education, and outreach as the department envisions.
